pearl*

**BERNINA<sup>+</sup>**

For generations, robust, long-lasting quality and a powerful sewing performance have been the hallmarks of a BERNINA machine. A BERNINA has always been something special – now it's also something unique! The activa white pearl limited edition is the sewing machine for individualists looking for a unique sewing experience. Each of the 3300 individual machines is hand-painted. And the CFL sewing light is even included in the standard accessories. Lend your sewing projects an individual touch as well: sew dresses, pillows, bags and accessories, and appliqué the white pearl motif! Downloadable white pearl motif and further information available from [www.bernina.com/whitepearl](http://www.bernina.com/whitepearl).

## Grow with your options.

### LCD-screen

The illuminated screen gives you all necessary information and settings at a glance: Selected stitch, stitch length and width, needle stop and recommended presser foot are displayed.

### Thread tension

Adjust thread tension flexibly and easily.

### Two spool holders

The vertical, fold-out second spool holder is especially practical when winding bobbins, and when using twin needles.

### Stitch length/width and needle position

Press the buttons to individually alter stitch length, stitch width and needle position. The altered settings are displayed on screen, and are temporarily saved.

### Thread cutter

Three thread cutters make the cutting of upper and lower threads especially easy.

### Needle threader

The threading function makes it a cinch to guide the thread through the eye of the needle – quickly and reliably.

### CFL Sewing Light

The bright-as-day BERNINA CFL sewing light provides shadow-free illumination of your sewing project from three sides, better than any other sewing light.

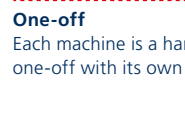

### Sewing Functions

For easy and reliable sewing, you can set Needle stop up/down, Half motor speed, Pattern end, and Mirror function at the touch of a button.

### Automatic Buttonhole

The set buttonhole length is saved, so that buttonholes of the same length can be sewn automatically and as often as wished.

### One-off

Each machine is a hand-painted one-off with its own number.

## Create unique sewing projects with the BERNINA white pearl!

Let the floral motif bloom on a silk tunic, or simply appliqué the flowers on a trendy evening bag!

The tunic pattern comes with the BERNINA My Label 3D fashion pattern software. The embellishment – the white pearl floral motif – is partly sewn on with straight and zigzag stitches, and partly painted on with textile paint. A fabulous combination that's bound to make a real impression. Now sew some decorative beaded tape onto the belt to add the perfect finishing touch to your white-pearl tunic!

Made from PVC-like high-tech material, the evening bag is turned into a trendy one-off with the addition of the floral-motif appliqué. Simply cut the motif from decorative fabric and sew onto the bag with a straight or zigzag stitch!

You'll find the instructions for both of these projects at:  
[www.bernina.com/whitepearl](http://www.bernina.com/whitepearl).
